ABOUT US

What are NFTs used for? NFTs are tokens used to represent ownership of unique items. NFTs allow their creators to tokenize things like art, collectibles, or even real estate. They are secured by the Ethereum blockchain and can only have one official owner at a time. The current value of 1 NFT is ₹0.61 INR. In other words, to buy 5 NFT, it would cost you ₹3.07 INR. Inversely, ₹1.00 INR would allow you to trade for 1.63 NFT while ₹50.00 INR would convert to 81.43 NFT, not including platform or gas fees.
